

## **AMETEK Process Instruments and TechStar Joining Forces for Analytical Gas and Moisture Measurement Solutions**

**Houston, TX – December 4, 2020:** AMETEK Process Instruments (AMETEK PI), a worldwide manufacturer of process analyzers and instrumentation, today announced that TechStar is now their official manufacturer representative for territories in West, North and East Texas, Oklahoma and Kansas. TechStar is the leading full-service manufacturer representative in the Southern West, Midwest, and Gulf Coast regions, and this new partnership adds AMETEK PI's specialized analytical solutions to TechStar's renowned product support services.

AMETEK PI is the leader in online analytical instrumentation, and this alliance adds new and exciting capabilities to TechStar's already robust offering of analytical solutions. AMETEK PI has the industry's most extensive product line for remotely accessible analytical instrumentation and designs and manufactures analyzers based on customers' unique needs. They create new, innovative analytical solutions designed to overcome the limitations of other methods for process monitoring, control, and quality assurance. Because AMETEK PI analyzers are known for their reliability, customers can have confidence the analyzers will provide the correct information when they need it.

AMETEK PI adds significant value to TechStar's existing lineup of industry-leading analytical instrumentation manufacturers. AMETEK PI's solutions give TechStar customers a much broader range of customizable options for analytical gas and moisture measurement, at a level not offered before. Whereas, TechStar's experience representing top instrumentation manufacturers gives AMETEK PI customers an additional level of support and expertise on their analyzer solutions. TechStar aims to function as a one-stop shop for instrumentation solutions, including assistance through the purchasing, setup, maintenance, and training on their manufacturers' equipment.

### **About AMETEK Process Instruments**

AMETEK Process Instruments—the leader in online analytical instrumentation with the industry's most extensive product line—offers analyzers based upon 11 differentiated technology platforms and used by markets ranging from the oil and gas and power industries to pharmaceutical and semiconductor chip manufacturing.

AMETEK Process Instruments is a unit of AMETEK, Inc., a leading global manufacturer of electronic instruments and electromechanical devices with annual sales of approximately \$5 billion. AMETEK Process Instruments joins AMETEK's Chandler Engineering, Grabner Instruments, Petrolab and Spectro Scientific within the AMETEK Energy & Process Instrumentation (E&PI) division.

For more information on the full line of AMETEK's analytical instrumentation, contact AMETEK Process Instruments, 150 Freeport Road, Pittsburgh, PA 15238. Phone: 412-828-9040 Fax: 412-826-0399. Website: [www.ametekpi.com](http://www.ametekpi.com)

## **About TechStar**

Since 2001, [TechStar](#) has been the one-stop shop for quality instrumentation and analytical devices, training, and application solutions. They are a leading manufacturer representative in the oil and gas, energy, water/wastewater, food and beverage, and pharmaceutical industries. TechStar offers instrumentation and analytical solutions that encompass the entire lifecycle of products and services.

TechStar has an established reputation in the Southern West, Midwest, and Gulf Coast regions of the US and is rapidly expanding its footprint with new partnerships in surrounding states. With deep roots in every community they serve, TechStar's culture focuses on building meaningful relationships between their partners and customers.
